

SAY BYE TO THAT RUBBING THIGH

NEW!

Thigh Solutions

Many of us experience our thighs rubbing together... through the body heat, and perspiration getting trapped, the thigh skin will become irritated; you can experience itchiness, burning feelings, red areas, and in some cases it can even result in blisters. If you experience these symptoms on your skin, try to keep the skin cool and use a solution to prevent the thighs from rubbing together. Luckily, we have developed a solution for that!

Be Sweet To Your Legs - Say Bye to that rubbing thigh!

This is the newest solution to prevent legs from rubbing against each other! You can now wear your skirts and dresses all summer long, without the irritation and painful skin caused by the rubbing of the thighs. We would like to introduce to you the 'Be Sweet to Your Legs (Lace)'. This product is a band that goes around your thigh preventing any skin to skin friction. The 'Be Sweet To Your Legs' will stay in place without rolling up or down; due to the applied silicone trim at the top and bottom of the band. The soft and smooth fabric will make sure you feel comfortable all day long. So, it's finally time to... say bye to that rubbing thigh!

Tips & Tricks

Firstly, a new product we have launched is the 'Be Sweet to Your Legs'. This product is worn around your thighs and will prevent skin to skin friction. The 'Be Sweet To Your Legs' will stay in place without rolling up or down, due to the applied silicone trim at the top and bottom of the band. The soft and smooth fabric will make sure you feel comfortable all day long.

Another solution to rubbing thighs, is wearing shapewear with legs. By wearing shapewear with legs, your skin will not directly rub against each other. This will prevent skin to skin friction, and irritated skin. We have a couple amazing products in our collection that will help you with any thigh rubbing issues. See more on the other side!
